

Weft / Weave Hair Extensions

Obviously we have many options when it comes to extensions and there's yet another to add to the list. Weft extensions are full length strips from 55-60 inches which can be cut according to your requirements, so smaller strips of hair can be attached to your scalp with special hair glue or tape. They are also known as weaves that are braided into the hair. This style is common for those with afro hair and is becoming more popular with all sorts of hair types.

Our top quality remi extensions are made with 100% human hair and therefore can be treated just the same as your natural hair and are cuticle aligned. They come in a wide assortment of blacks, browns, blondes and reds/coppers and vibrant colours and you can find them in 14-22 inch lengths. Wefts are perfect for those who want hair extensions for a longer period of time.
